

1861 CENSUS OF THE TOWNSHIP OF EAST WHITBY
REEL- C 1058

€OMPILED BY THE OSHAWA COMMUNITY ARCHIVES

This index to the 1861 census of the Township of East Whitby was undertaken as a project of The Oshawa Community Archives in 1998.

This particular volume records alphabetically, every individual living in the East Whitby area. Due to time constraints, only the surname, page and sub-district have been recorded in this booklet. The surnames have been indexed in alphabetical order for each sub-district which makes searching on the microfilm reader an easier task. The page and sub-district appear at the top of each page of the original microfilmed census.

Surnames are entered as they appear in the census. Cross references and alternate spellings are not included in this index. The user should thoroughly examine the index for alternate spellings of names. In some cases, the writing was either illegible or too faint to read, and the compiler had to resort to using a question mark (?) or a dash (-) to indicate this. In this particular census, pages 1-14 were too faint to read and therefore a large number of names for East Whitby are missing. There was also a large portion of the census which was in very poor writing and many names were unreadable.

Any questions or comments regarding this index should be directed to the attention of:
